Goldfish

You're like a goldfish in a bowl
You don't know what's to come
Rain like needles hits my eyes
In my zone I am king

I am in the moment now is all there is

Checking the solar winds again
The soft drink sure tastes weird
In the fridge: the light
Cause of death: life

I am in the moment now is all there is

Addiction feels so good
I refuse plastic tools
The movie you're about to see
Is produced by reality

I am in the moment now is all there is
